

PRESSES

■ ■ *For slurry and sludge thickening*

IV.I MACHINE DESCRIPTION

R.E.M. manufactures presses for sludges, slurries and vegetables.

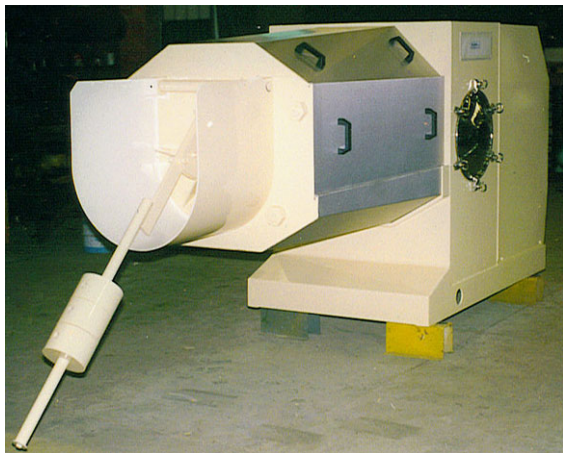

The units are available both in carbon steel or stainless steel and they range between 10 inches diameter up to 32 inches.

The solids can achieve up to 50% DS.

IV.II APPLICATIONS

Our presses have been successfully installed in:

- *cattle slurry separation;*
- *pig slurry separation;*
- *potato peelings;*

- *carrots peelings;*
- *pulp and paper wastes;*
- *tomato skins;*
- *grape;*
- *packaged food recycling;*
- *household waste recycling;*
